

# Bond construction update

## Morningside Elementary School

### April 2021

Voters passed a bond measure in 2018 to fund improvements for Salem-Keizer Public Schools. The bond will support some level of improvement at every school in the district. Morningside Elementary School will receive nearly \$3 million in renovations to support music, increase safety and security and protect the public's investment in the school building.

#### Highlights of the work happening at Morningside include:

- Heating/ventilation system improvements
- Plumbing improvements
- Roofing replacement
- Music room improvements, including new paint and flooring
- Creating a secured vestibule at the front entry
- Seismic upgrades and more

AC + Co Architecture and the district project management team are finished with the design process and have created instructions for Cedar Mill Construction, the construction contractor for Morningside's bond project, to use to improve the spaces at our school.

Construction is scheduled to begin this summer. As the time for construction approaches, you may notice staging activities for construction taking shape on campus, such as fencing or temporary traffic flow adjustments. Construction is expected to be substantially complete by fall of 2021.

Thanks to the community's support of the bond, Morningside will soon have improvements to support a safer learning environment.

A list of projects happening at Morningside can be found on the [district website](#). For more information about bond-funded construction in Salem-Keizer Public Schools, please visit [www.salemkeizer.org/projects-status](http://www.salemkeizer.org/projects-status).

### 2018 BOND PROGRAM

#### EXPAND CTE & SCIENCE

Expand career-technical (vocational) and science education opportunities

#### RELIEVE OVERCROWDING

Add space to relieve overcrowding, prepare for future enrollment and expand core areas

#### INCREASE SAFETY & SECURITY

Secure school entries and upgrade electronic badge access systems; increase seismic safety

#### PROTECT PUBLIC INVESTMENT

Improve existing buildings to ensure longevity of past and present public investments
