

Campuses closed for summer construction

Twenty-two school campuses will be restricted this summer due to construction activity

June 2021

Salem-Keizer is entering the third summer of construction in the 2018 bond program, and many school offices are packing and moving to facilitate construction work. The summer of 2021 will be the busiest year of construction in the bond program, with about two dozen schools starting or continuing construction work during the year.

Access to 22 school campuses will be restricted this summer to facilitate the safe and swift progress of construction. Some school offices will be relocated and will be open for normal summer operating hours* at a host location until the fall. Most summer activities at these schools have also been relocated.

If you have questions about summer operations at these locations, please call the school's office.

Demolition at North Salem High School in 2019

Auburn Elementary School

Summer office location: Auburn Elementary School

Campus access: Auburn Elementary School campus will be closed except for the office.

503-399-3128
