

## Highland Elementary School Bond Construction Update!

February 2020

Voters passed a bond in 2018 to fund improvements across the entire district. Highland Elementary School will be receiving improvements in 2020 to increase safety and security and protect the public's investment in the school's facility.

Highlights of the work happening at Highland include site drainage improvements, replacement of portable classrooms, security improvements to increase visibility of the front entry from the office, music room/stage improvements and more. Over \$302,000 will be invested in improvements at Highland!

The district's project management team is currently working through the design process and preparing to bring a construction contractor on board. Construction and improvements are planned to begin in June at the end of the 2019-20 school year and are expected to be completed over the summer.

Construction fences and the contractor's portable office will be seen at Highland as we get closer to the start of construction.

Thanks to the community's support of the 2018 bond, Highland will soon have an improved learning environment.

Highland's project sheet can be found on the [district website](#). For more information about bond-funded construction in Salem-Keizer Public Schools, please visit [www.salemkeizer.org/projects-status](http://www.salemkeizer.org/projects-status).
