

November 2020

Dear Wolves family,

Over the summer, Weddle Elementary School received some exciting building improvements funded by the 2018 construction bond. I'm happy to officially announce that construction is now complete!

Thanks to the support from our amazing community that approved the bond in 2018, over \$1 million was invested in improvements at Weddle. The improvements we received over the summer will increase safety and security in the school and improve the music space.

### **Music Room Improvements**

Weddle received improvements to the music room, including new paint, new blinds and improvements to the risers, allowing them to be stored upright for better accessibility and storage.

### **Front Entry Renovations**

Improvements also included renovations to the front office to include a check-in window to the secured vestibule. This increases visibility of the front entry and allows office staff to check visitors in before allowing them access to the rest of the school.

### **Additional Improvements**

Other improvements included a roofing replacement, intercom system upgrades, badge access system upgrades and expanded wireless capacity.

It may seem strange to celebrate building improvements at a time when we can't welcome students physically back to school. When it's safe to be together again, these spaces will be ready and waiting for students. Until then, many spaces in our school can be used by teachers as they offer comprehensive distance learning. All of us at Weddle are eager for the time when we can return to in-person learning!

More information about other schools that received or will receive improvements from the bond dollars can be found at [www.salkeiz.k12.or.us/projects-status](http://www.salkeiz.k12.or.us/projects-status)

Thank you so much for supporting our students! We will truly benefit from the improvements the bond has provided here at Weddle.

Sincerely,  
Principal Stacey Lund
