

Bond construction update

Bush Elementary School

December 2020

Voters passed a bond measure in 2018 to fund improvements across the entire district, including at Bush Elementary School. Bond funding will support more than \$871,000 in renovations at Bush to increase safety and security and support music.

Highlights of the work happening at Bush include:

- A roofing replacement
- Music room improvements
- Intercom system upgrades
- Electronic badge access system upgrades
- Expanded wireless capacity

Bush's construction project also received additional scope to make renovations to the security vestibule in order to increase visibility of the main entry from the office.

The district's project management team, along with Paul Bentley Architects, is currently working through the last stages of the design process to create the final drawings construction contractors will use to improve spaces in our school.

Construction is scheduled to begin in the summer of 2021 and is expected to be complete early in the fall of 2021.

Thanks to the community's support of the bond, Bush will soon have a safer learning environment with additional support for music.

A list of projects happening at Bush can be found on the [district website](#). For more information about bond-funded construction in Salem-Keizer Public Schools, please visit the [Bond Projects home page](#).

2018 BOND PROGRAM

EXPAND CTE & SCIENCE

Expand career-technical (vocational) and science education opportunities

RELIEVE OVERCROWDING

Add space to relieve overcrowding, prepare for future enrollment and expand core areas

INCREASE SAFETY & SECURITY

Secure school entries and upgrade electronic badge access systems; increase seismic safety

PROTECT PUBLIC INVESTMENT

Improve existing buildings to ensure longevity of past and present public investments
