

# Bond construction update

## Lee Elementary School

### December 2020

Voters passed a bond measure in 2018 to fund improvements across the entire district, including at Lee Elementary School. Bond funding will support more than \$791,000 in renovations at Lee to improve safety and security in the school.

Highlights of the work happening at Lee include:

- A roofing replacement
- Intercom system upgrades
- Card access system upgrades
- Expanded wireless capacity
- Renovations to the front office to increase visibility of the main entry

The district's project management team, along with Paul Bentley Architects, is currently working through the last stages of the design process to create the final drawings construction contractors will use to improve spaces in our school.

Construction is scheduled to begin in the summer of 2021 and is expected to be complete early in the fall of 2021.

Thanks to the community's support of the bond, Lee will soon have a safer learning environment!

A list of projects happening at Lee can be found on the [district website](#). For more information about bond-funded construction in Salem-Keizer Public Schools, please visit the [Bond Projects home page](#).

### 2018 BOND PROGRAM

#### EXPAND CTE & SCIENCE

Expand career-technical (vocational) and science education opportunities

#### RELIEVE OVERCROWDING

Add space to relieve overcrowding, prepare for future enrollment and expand core areas

#### INCREASE SAFETY & SECURITY

Secure school entries and upgrade electronic badge access systems; increase seismic safety

#### PROTECT PUBLIC INVESTMENT

Improve existing buildings to ensure longevity of past and present public investments
