

Bond construction update

Richmond Elementary School

December 2020

Voters passed a bond measure in 2018 to fund improvements across the entire district, including at Richmond Elementary School. Bond funding will support more than \$2 million in renovations at Richmond to improve safety and security in the school.

Highlights of the work happening at Richmond include:

- Replacing the old portables
- Music room improvements
- Plumbing improvements
- Renovations to the front entry to increase visibility from the main office
- Seismic upgrades
- Intercom system upgrades

The bond funding will support smaller upgrades and improvements in other areas as well.

The district's project management team, along with Paul Bentley Architects, is currently working through the last stages of the design process to create the final drawings construction contractors will use to improve spaces in our school.

Construction is scheduled to begin in the summer of 2021 and is expected to be complete early in the fall of 2021.

Thanks to the community's support of the bond, Richmond will soon have a safer learning environment with additional support for music.

A list of projects happening at Richmond can be found on the [district website](#). For more information about bond-funded construction in Salem-Keizer Public Schools, please visit the [Bond Projects home page](#).

2018 BOND PROGRAM

EXPAND CTE & SCIENCE

Expand career-technical (vocational) and science education opportunities

RELIEVE OVERCROWDING

Add space to relieve overcrowding, prepare for future enrollment and expand core areas

INCREASE SAFETY & SECURITY

Secure school entries and upgrade electronic badge access systems; increase seismic safety

PROTECT PUBLIC INVESTMENT

Improve existing buildings to ensure longevity of past and present public investments
