

Bond construction update

Yoshikai Elementary School

December 2020

Voters passed a bond measure in 2018 to fund improvements across the entire district, including at Yoshikai Elementary School. Bond funding will support nearly \$7 million in renovations at Yoshikai to improve safety and security in the school and help relieve overcrowding.

Highlights of the work happening at Yoshikai include:

- Ten new classrooms
- Renovations to the library media center
- Removal of all portable classrooms
- Heating/ventilation system improvements
- Renovations to the main entry to increase visibility from the front office
- Gym improvements

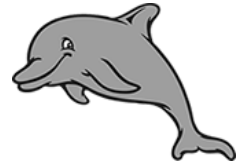

The bond funding will support smaller upgrades and improvements in other areas as well.

The district's project management team, along with BBL Architects, is currently working through the last stages of the design process to create the final drawings construction contractors will use to improve and add spaces to our school.

Construction is scheduled to begin in the summer of 2021 and is expected to be complete early in the summer of 2022.

Thanks to the community's support of the bond, Yoshikai will soon have a safer learning environment and additional space to support our students!

A list of projects happening at Yoshikai can be found on the [district website](#). For more information about bond-funded construction in Salem-Keizer Public Schools, please visit the [Bond Projects home page](#).

2018 BOND PROGRAM

EXPAND CTE & SCIENCE

Expand career-technical (vocational) and science education opportunities

RELIEVE OVERCROWDING

Add space to relieve overcrowding, prepare for future enrollment and expand core areas

INCREASE SAFETY & SECURITY

Secure school entries and upgrade electronic badge access systems; increase seismic safety

PROTECT PUBLIC INVESTMENT

Improve existing buildings to ensure longevity of past and present public investments
