

Non-agenda Public Comment:

- Against/Contra **Critical race theory**

Gregory Anderson

Parent / Padre de familia

Salem

As a parent in the district, I would like the School Board to ensure that critical race theory is not taught or promoted in Salem-Keizer. Teaching that my child is by nature oppressed because of her skin color, or that my neighbor's child should be ashamed of himself because of his, actively trains the next generation to be racist. Additionally, critical race theory would be a huge setback to the stated purpose and noble work of the OSEEA. Please train and support teachers to navigate difficult conversations about race. But please reject the counterproductive false narrative promoted by CRT. Thank you for listening.
